

Building a greener Europe starts here!
Join the **Erasmus Mundus Joint Master's
in European Environmental Economics and Policy
(M3EP)**

EUROPEAN
UNIVERSITY
ALLIANCE

The M3EP study programme prepares you to take on one of the **most complex and demanding policy areas** for the EU and its Member States in the 21st century: the **green transition**.

This Erasmus Mundus Joint Master's programme is delivered collaboratively by 5 member universities of the **4EU+ European University Alliance**.

APPLICATIONS ARE OPEN!

**Join the next generation
of changemakers!**

www.m3ep.eu

**Co-funded by
the European Union**

Why apply?

- Gain international experience while **studying at one of the top European Universities**
- Develop expertise at the **intersection of economics and environmental policy**
- Engage with **real-world green-transition challenges**
- Expand your network: **academic, policy, industry**
- Enhance your **career prospects** in environmental policy, public institutions, consultancy, research, NGOs

Meet our students!

"M3EP stood out to me because it brings together economics and policy in an international and collaborative setting, giving me the chance to approach environmental challenges in a holistic way and develop solutions that are both scientifically grounded and socially aware."

Chiara Fiacco

"Coming from a region affected by climate-induced conflict, I want to create sustainable solutions both at home and globally that balance social justice, economic stability, and ecological preservation."

Abubakar Sani Yahaya
